Reference	Version
SY9-01	**17/12/2009**

Objective

To introduce the purpose and the organization of the Praxeme Institute

Topics

History

Status

Corpus

Duration: 1/4 h

The story and motivation

Motivation

Develop a comprehensive methodology for enterprise transformation

- Bridge the various disciplines that are required

Provide the market with a widespread method

- "Open source" spirit

Running

Based on investment sharing

- Every contributor helps to develop an answer to its concerns, with the Praxeme fund as a starting point.
- Then, it deposits the results into the fund for the community.
- First contribution: 2003

The Praxeme Institute is a non-for-profit association that leads the activity and the communication

- Creation: 2006 October

Methodological guides
    One for each aspect
    A General guide
Method components
    Forms and their comments
        Use-case description
        Logical service description
    Test method
